Because WE CAN...

with your support, from the ground up.

Habitat Women Build requires many volunteers for planning, fundraising and committees. Sponsorship and donations are necessary to cover the average \$150,000 cost to build a new Habitat home for a low-income working family.

The Women Build program is about building a home(s), but also empowering women to learn new trades or skills, under the direction of skilled tradespersons. Women Build encourages women to get involved in a male dominated profession in a non-competitive environment. Not excluding men, it is about women's spirit, empowerment, solidarity, fun, learning, and pride working with a family to build a place they can call home.

There are 125,000 Manitobans living in poverty.

Habitat for Humanity Winnipeg (HFHW) needs your support to build affordable homes for purchase by low-income working families. In doing, so we all can take pride in reducing poverty housing and bettering the lives of less fortunate families.

The Habitat program is unique. Each family's mortgage payments to HFHW help fund new land acquisitions that allow your generous donations, sponsorships and volunteer time to build more new homes every year.

Because
YOU CAN...

become a Home Sponsor

There are different levels of sponsorship available with varying levels of recognition. One of the most popular benefits is providing your team with an opportunity to construct the home, often working alongside the homeowner(s). It is a great opportunity to team build while building a safe, decent and affordable home for a low-income working family.

donate

Donate today by completing the attached form or online at www.habitat.mb.ca/womenbuild.html (select Women Build on the donation form).

fundraise

Individuals and teams can also fundraise for Habitat for Humanity Women Build by using our online fundraising tool found on the Women Build page at www.habitat.mb.ca/womenbuild.html.

purchase Women Build Merchandise
