About Women Build

The goal of Women Build is to empower women to help families build strength, stability and independence. At Habitat, we have the ability to provide opportunities for hands-on construction learning, so women can build skills and assume leadership roles while building Habitat homes.

In Manitoba, the Women Build program was established in 2005, and has raised close to \$1.9 million dollars. The committee hosts multiple events throughout the year to fundraise to construct a home for a working family to purchase a new, affordable home.

Volunteers work under the guidance of construction professionals, Women Build crew leaders, volunteers and future Habitat homeowners. Whether you are learning new skills or simply adding a few to your tool belt, this is a rewarding experience for all involved, and it improves the community that you share.

All ages and genders are welcome, promoting solidarity and pride in the community as we work alongside each other to build affordable houses for deserving Habitat Partner families.

Holes for Homes - 15th Anniversary

Join us for our 15th annual Holes for Homes golf tournament. We are planning an extra special event with the goal of raising \$30,000 towards a home for a deserving family.

Whether you are a seasoned golfer or a weekend hacker this non-competitive, co-ed round of golf will be a great day with new and old friends!

Holes for Homes

Wednesday, July 3, 2024
